VIJAYAPUR.

BEST PRACTICE

“SAMANVAYA: INCLUSIVE EDUCATION”

DEPARTMENT OF HOME- SCIENCE

Best Practice :

SAMANVAYA: INCLUSIVE EDUCATION

Goal:

- To bring awareness among students education for special kids.
- To identify schools for physically challenged kids and visit such schools.
- To motivate the students to learn about use of teaching aids.
- To enable the students to learn about personal counseling to special kids and parents of these kids.

The Context:

- The *Samanvaya* is organized by Department of Home Science.
- The faculty and the students of the Home Science department and also of other departments visit *Samanvaya* schools as an academic exercise.
- *Samanvaya* familiarizes students with the difficulties of special kids.
- *Samanvaya* equips students with the knowledge of learning disabilities and helps them develop an ability to empathize with the students.

The Practice:

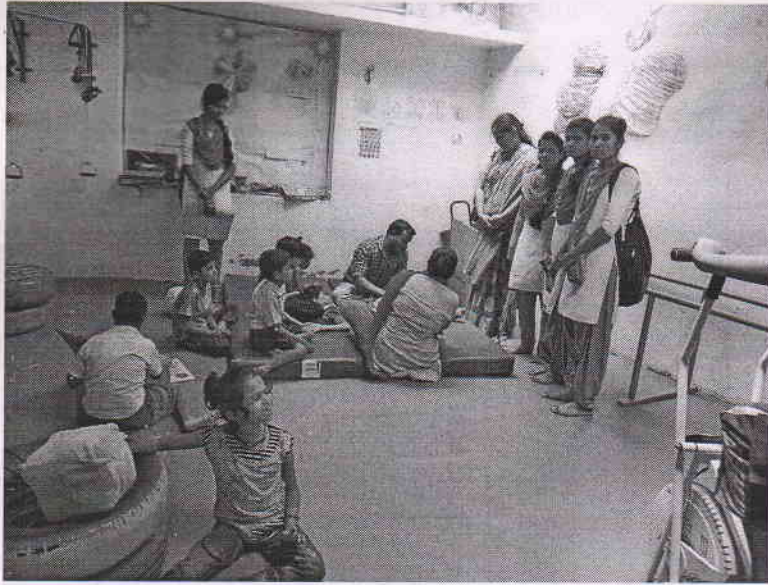

- The students and faculty visit to *Samanvaya* school teaches them about education for special kids.
- The practice makes the students aware about inclusive education and education for the disabled.

Evidence of success:

- The department of Home Science through its visit to *Samanvaya* school has taught them oral and written skills as they submit a report of the visit.
- The visit made the students aware about the reasons for disability and how to overcome the difficulties.

Problems encountered and resources required:

- Time constraint is one of the main factor as students come to college from surrounding village.
- Students are reluctant to be a part of the visit .it is challenging task to convince the students.
- Identifying *Samanvaya* school for visit is also challenging.
